

### **Item 13 – Electric Car Chargers**

In December 2020 Council responded to a request from a member of the public to consider locations for Electric Car charging points in the village.

In January 2021, it was proposed that Arnside Parish Council deal with the issue directly themselves rather than factor locations into the car parking consultation being carried out by SLDC, however this decision was overturned in February 2021 and it was agreed that any locations should be considered as part of the car parking consultation and SLDC decisions re car park location.

No further action has been taken. The car parking consultation is taking longer than first anticipated and recently, the above member of the public has been in touch again with the Clerk to ask about progress with this matter.

As Council is unaware of any further progress made by SLDC re the intended car park location, it would seem appropriate for Councillors to re-consider next steps in light of the delays.

The Council is asked to consider:

1. whether or not it would like to review and provisionally agree on possible locations for Electric car charging points in the village
2. whether or not it wishes to contact Charge My Street: [www.chargemystreet.co.uk](http://www.chargemystreet.co.uk) with a view to taking next steps
